## ABOUT US

OPHID is a Zimbabwean organization that develops and implements innovative approaches and strategies to strengthen the provision of quality HIV prevention, care and treatment services.

With support from PEPFAR through USAID, OPHID leads the Families and Communities for the Elimination of HIV (FACE HIV) consortium supporting the Ministry of Health and Child Care to provide quality HIV, PMTCT, TB care and treatment services in over 660 health facilities in 24 districts across 6 provinces of Zimbabwe.
